

User Group Security

Last Modified on 01/20/2023 10:38 am EST

For a User to be able to use the Company Rate Change functionality certain security privileges must be granted to the User through the User Group Security options within SedonaSetup. The following User Group Security options located within Application Access pertain to the Company Rate Change.

- Company Rate Change – Allows a User the ability to perform global rate increases or decreases to customer recurring lines.
