

User Group Security - Customer Query Builder

Last Modified on 05/11/2026 4:12 pm EDT

For a User to be able to use the Customer Query Builder, certain security privileges must be granted to the User through the User Group Security options within SedonaSetup. The following User Group Security options located within Application Access pertain to the Customer Query Builder.

- Customer Query Builder – Allows a User access to the Customer Query Builder report designer (ad-hoc reporting tool).
 - Print Customer Queries – Allows a User to print the report results designed with the Customer Query Builder.
 - Export Customer Queries – Allows a User to export the report results to a .csv file.
-
