

# Payroll Interface Overview and Topics

Last Modified on 01/27/2023 6:25 pm EST

The SedonaOffice Payroll module consists of options for importing data from certain supported Payroll programs and for creating payroll files to be exported to supported Payroll companies.

Some of the options are considered Add-On modules and require a setup fee and an additional monthly support fee to be able to use the option. Each feature of this module is listed below.

- Import Payroll Data from Pensoft\*
- Import Payroll Data from Ceridian\*
- Import Payroll Data from ADP\*
- Create Payroll Timesheet Batches
- Create Export Payroll Batch Files for ADP\*
- Create Payroll Timesheet Batches - Manually

\*Those marked with an asterisk are Add-On Modules.
