

SedonaSchedule - Designed Functionality Overview and Topics

Last Modified on 01/30/2024 1:04 pm EST

This section will describe the major components which make up SedonaSchedule along with information on how to navigate within this application.

When first accessing this module from the main SedonaOffice application by selecting the Service option, SedonaSchedule will be displayed which consists of several components; a Ribbon at the top, the Calendar / Detail Viewer shown on the left and the Display area on the right. Information that is displayed within Display area is controlled by which option the User clicks on the Ribbon.

Follow the topic links below for descriptions of each major component and function of SedonaSchedule.
