

# SedonaSetup - AR - Aging Buckets

Last Modified on 01/12/2023 9:26 am EST

□

The Aging Buckets setup form is used to define the five groups into which your accounts receivable invoices will be aged. These aging buckets appear on the Customer Explorer and on the Accounts Receivable Aging Reports.

Age Invoice By – select which method to use to age your customer invoices; age by the Invoice Date or age by the Invoice Due Date.
