

SedonaSetup - AR - Tax Agency

Last Modified on 01/12/2023 9:29 am EST

□

A Tax Agency is a municipality to whom your company will remit sales tax that was invoiced to your customers. Tax Agencies may be a state, county, city or any other entity to whom sales tax is remitted.

If your company does not collect and remit sales tax to a government agency, you will still need to set up a Tax Agency for the state in which your main office is located.
