

SedonaSetup - CS - Alarm Services

Last Modified on 01/12/2023 9:36 am EST

□

If your company uses an outside source to provide monitoring services for your customer systems, you have the ability to track the services and the price your company pays to the Alarm Monitoring Company providing the service.

This information is used to generate a report that is used to reconcile the bill your company receives from the alarm monitoring company. The entries made in this table are linked to the records set up in the **Alarm Company setup table**.

Setup one record for each service the alarm monitoring company provides to your company.

You may want to use the same words for each service that your Alarm Company specifies on their Bill to your company; this will make reconciling much easier.
