

SedonaSetup - JM - Job Custom Field Tables 1,2,3,4

Last Modified on 01/12/2023 2:20 pm EST

□

In the example shown below, we chose to track Referrals for each Job. For each choice you would like the User to be able to select from, create one record in this setup table. The number of records you may enter is unlimited.

The entries in the example Custom Fields Table 1 below are the choices that will be available in a drop down menu in the Job record, on the button labeled Custom Fields.
