Locating a Job

After logging into the Sedona-X mobile app a welcome screen will appear. Choose the hamburger menu on the left side of the screen.

A vertical menu will appear on the left side of the screen. Choose the **Jobs** option.

Any open jobs will automatically appear on this screen.

Choosing the closed or open options at the bottom of the screen will preselect all jobs with that status.

Using search will also allow you to find a job. You can choose the filter option at the top of the screen to the left. Filter either by site name, job number, or site address.
