

How to Apply Payment when Invoice Shows Pending Status

Last Modified on 09/12/2024 6:05 pm EDT

This document will go over how to solve the issue when showing an invoice in a pending state without needing to call support to remove the status. The steps are done in SedonaOffice version 6.2.0.16.

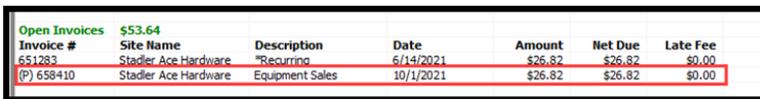

Overview

Scenario – Customer has auto pay on cycle invoices. The invoice(s) post and the customers credit card is expired and needs updated. The date is updated, however, the invoice was already posted and showing in a (P)ending state, but no payment will be made. Steps will show how to receive the payment, with the updated credit card, and apply the payment to that invoice.

Steps:

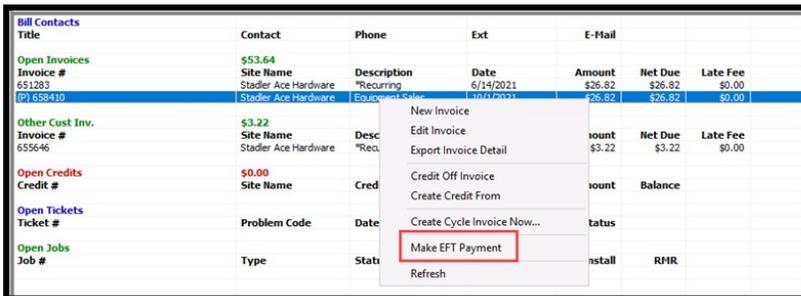

The steps below assume the user has to proper permissions to complete all the steps necessary.

1. The customer is showing (P) status invoice in Open Invoices
