How to Remove Equipment from a System

Last Modified on 09/13/2024 4:48 pm EDT

When a customer needs to remove equipment from a customer's system, the steps are below.

1. Find the account
2. Goto Sites> and choose the respective System
3. Under the system choose Equipment
4. Right-click on the part that needs to be removed and choose Remove Equipment.
5. Once step 4 is done, the part is removed and goes to Equipment History
