

Update Unapplied Cash Header

Last Modified on 09/13/2024 4:10 pm EDT

If we can confirm unapplied cash has been fully applied, but the cash still shows an open balance, this script can be run to update the unapplied cash header. First also confirm the applied cash shows correctly in the activity ledger and general ledger.

```
Select sum(amount)
```

```
from AR_Unapplied_Cash_Detail
```

```
where Unapplied_Cash_Id = [Unapplied_Cash_Id] -- ID of Unapplied Cash Entry customer believes is wrong
```

```
update UC
```

```
set
```

```
used_amount = Amount
```

```
from AR_Unapplied_Cash uc
```
