Set Default_Note_Access_Level for Jobs from WeSuite

Issue:

Notes that are imported on jobs from WeSuite have a default access level. If this needs to be changed, the setup table will need to be updated.

select * from SY_WeSuite_Setup

Resolution:

The settings need to be changed in the SY_WeSuite_Setup table in the SedonaOffice company.

The scripts below can be used to change this value in the Company.

--- Backup table ---

select * into SY_WeSuite_Setup_Backup from SY_WeSuite_Setup

--- Check the current value. ---

select * from SY_WeSuite_Setup

--- Update the value. can be 1, 2, or 3.---

Update SY_WeSuite_Setup

Set Default_Note_Access_Level = 2

Where Setup_Id =1
