

How to set Inventory to Allow Negatives

Last Modified on 09/13/2024 6:47 pm EDT

The company wants to be able to allow negative balances in Inventory.

Resolution:

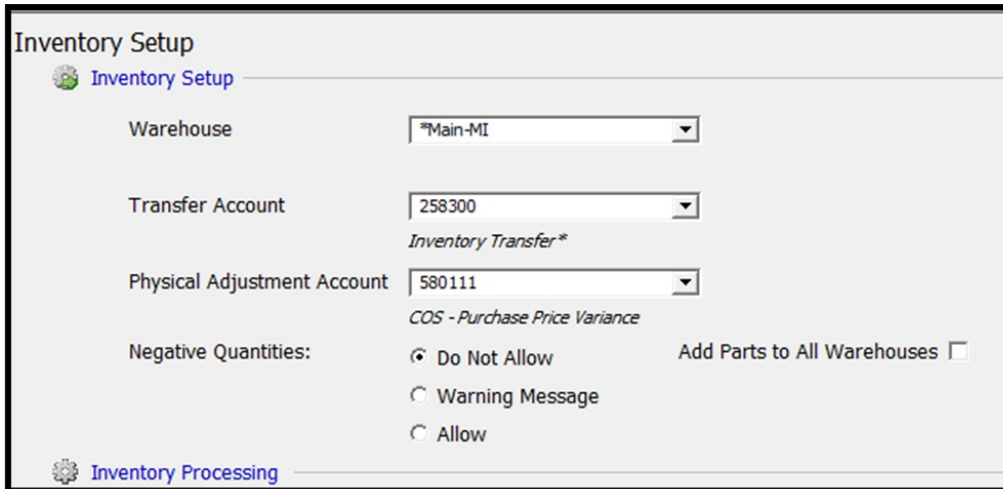

Go to SedonaSetup > Inventory Setup in the IN area.

In Inventory Setup, there is a section labeled Negative Quantities and 3 options to choose from.

Do not allow - this is marked by default

Warning message

Allow

Inventory Setup

 **Inventory Setup**

Warehouse: *Main-MI

Transfer Account: 258300
*Inventory Transfer**

Physical Adjustment Account: 580111
COS - Purchase Price Variance

Negative Quantities:

- Do Not Allow
- Warning Message
- Allow

Add Parts to All Warehouses

 **Inventory Processing**

If you wish to allow negative quantities without receiving a message then choose the option Allow.

If you wish to allow negative quantities but want to receive a warning then choose the option of Warning message.
