

How to Add a Company to the SedonaAPI

Last Modified on 09/16/2024 5:11 pm EDT

SedonaAPI allows a user to add multiple Companies. This will allow SedonaWeb 2.0 access and company management for the respective Company added.

Step 1.) Once logged into your 2.0 API you will click on the Companies tab.

□

Step 2.) Click on Add Company.

□

Step 3.) Drop down for Company will show what Companies can be added. You will choose the Company the Form will auto-populate then click on Submit.

□
