

# Sedona-X Mobile Release Notes

November 2023

Version 1.6.13

**Contents**

- Application Corrections .....2
  - Managely/Sedona-X Mobile .....2
    - Service Level is incorrect .....2
    - Managely - Sedona-X Pricing displayed without permissions .....2
    - Sedona-X Mobile Speed issues (Managely) .....2
    - Mobile add task crashes app if task has no statuses available .....2
- Special Upgrade/Install Instructions .....2
- (SedonaOffice) Supported Environments .....3
  - Minimum System Requirements .....3

## **Application Corrections**

### **Managely/Sedona-X Mobile**

#### **Service Level is incorrect**

The issue was the list would pull down all service levels, and the app was always assigning the first service level to the work order. We resolved this to show the correct service level.

#### **Managely - Sedona-X Pricing displayed without permissions**

We fixed a user interface issue where part and item prices were showing when the user role disabled them. In Managely, for user permissions (Setup > Company > User Manager), each of these permissions are required to hide costs and prices: Hide Cost, Hide Pricing, Parts Hide Cost, Timesheets Hide Labor Rate.

We also fixed an issue where opening a work order edit screen on a customer with more than 25 sites would cause the app to crash.

#### **Sedona-X Mobile Speed issues (Managely)**

We improved the speed of getting appointments and sales tax information when loading work orders to edit and view them.

#### **Mobile add task crashes app if task has no statuses available**

We fixed a crash when loading a work order task in Managely where the task does not have any statuses.

## **Special Upgrade/Install Instructions**

**Operating System** — iOS devices should be on iOS version 12 and Android devices should be using Android 10 or newer for full compatibility, though earlier versions may be able to support the application. Please also check the app store for any updates to your Sedona-X Mobile app.

**SedonaOffice** — SedonaOffice will need to meet the system minimum (below) to support Sedona-X Mobile.

**SedonaWeb/SedonaAPI 2.0** — IT will need to update your SedonaWeb/SedonaAPI 2.0 version to meet the system minimum (below) at the same time as your SedonaOffice version. This is to ensure compatibility with the Sedona-X Mobile app.

## **(SedonaOffice) Supported Environments**

### **Minimum System Requirements**

- SedonaOffice Version 6.2.0.15
- SedonaWeb/SedonaAPI 2.0 Version 1.45.0
- Server (where SedonaWeb/SedonaAPI 2.0 is installed) has Microsoft .NET 4.8 installed
