About this Document

This Reference Document is for use by SedonaOffice customers only. This document is not intended to serve as an operating or setup manual. Its purpose is to provide an overview of the enhancements and corrections made in the release and is to be used for reference purposes only.

SedonaOffice reserves the right to modify the SedonaOffice product described in this document at any time and without notice. Information contained in this document is subject to change without notice. Companies, names and data used in examples herein are fictitious unless otherwise noted. In no event shall SedonaOffice be held liable for any incidental, indirect, special, or consequential damages arising from or related to this guide or the information contained herein. The information contained in this document is the property of SedonaOffice.

This document may be updated periodically; please visit our website at www.sedonaoffice.com for the most current version. Copyright 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018

Overview

This document is being provided to explain the changes made to the SedonaOffice application since Version 5.7.98. This is an intermediate version update that contains application corrections.

About This Release

Customers updating to 5.7.99 from a version earlier than 5.7.89 should read the release notes for all versions prior as important changes have been made to the program.

Application Corrections

Accounts Payable

Print Checks

Reported Issue: Users received the error "Run-Time Error 91 – Object variable with block variable not set" when printing checks from the Print Preview screen by clicking on File-Print followed by File-Exit. The checks did not clear correctly out of the print queue without attempting to print multiple times. This issue has been corrected.

Reported Issue: Users received the error "[DBNETLIB][Connection Open (Connect().] SQL Server does not exist or access denied" at the time that they attempted to print a check. The check would not print the check number. This issue has been corrected.
