SedonaWeb/SedonaAPI 2.0 Release Notes

September 2025

Version 1.51.0.7

SedonaWeb 2.0

Application Corrections

SA Proposal will not sync with SedonaOffice if includes Notes tab entries [00143795, 144256]

When creating a new job along with associated notes by converting from a proposal, the process of adding the job notes did not correctly assign the JobID, resulting in notes that were not linked to the newly created job.

We fixed this by ensuring the JobID is correctly assigned to the JobNote during the job creation process.

Special Upgrade/Installation Instructions

If your company uses SedonaWeb 2.0/SedonaAPI 2.0, IT will update the version at the same time as your SedonaOffice upgrade. This is to ensure compatibility with all modules using SedonaWeb 2.0/SedonaAPI 2.0.

.NET Framework 4.8 automatically uses TLS 1.2. TLS 1.2 must be the only TLS version Enabled in the Registry. TLS 1.0 and TLS 1.1 must be disabled. Verify that they are disabled and that TLS 1.2 is enabled.

Supported Environments

- This version of SedonaWeb 2.0/SedonaAPI 2.0 requires SedonaOffice version 6.2.0.20 or later.
- Server (where SedonaWeb 2.0 is installed) has Microsoft .NET 4.8 installed.
